Definitions

Delinquency ratio	means the aggregate Outstanding Principal Amount of all the Delinquent Mortgage Loans (in arrears for at least 30 days) on the Portfolio as at the relevant Collection Period
Default ratio	means the aggregate Outstanding Principal Amount of all the Defaulted Mortgage Loans (in arrears for more than 90 months) on the aggregate Outstanding Principal Amount of the Portfolio as at the relevant Collection Date
Default Level	means, on any Payment Date, the ratio between: (a) the Cumulative Outstanding Principal Amount of the Defaulted Mortgage Loans comprised in the Portfolio; and (b) the Initial Outstanding Principal Amount of all the Mortgage Loans in the Portfolio.

Remark

Please note that the figures related to "Defaults" has been amended since September 2009 according to what communicated by the Servicer to the Transaction.

The amount now showed in column Defaults is the gross cumulated amount of defaulted claims. The Servicer has also assured that all amounts trapped by PDL are correct and they sum up the amount currently shown in this column.

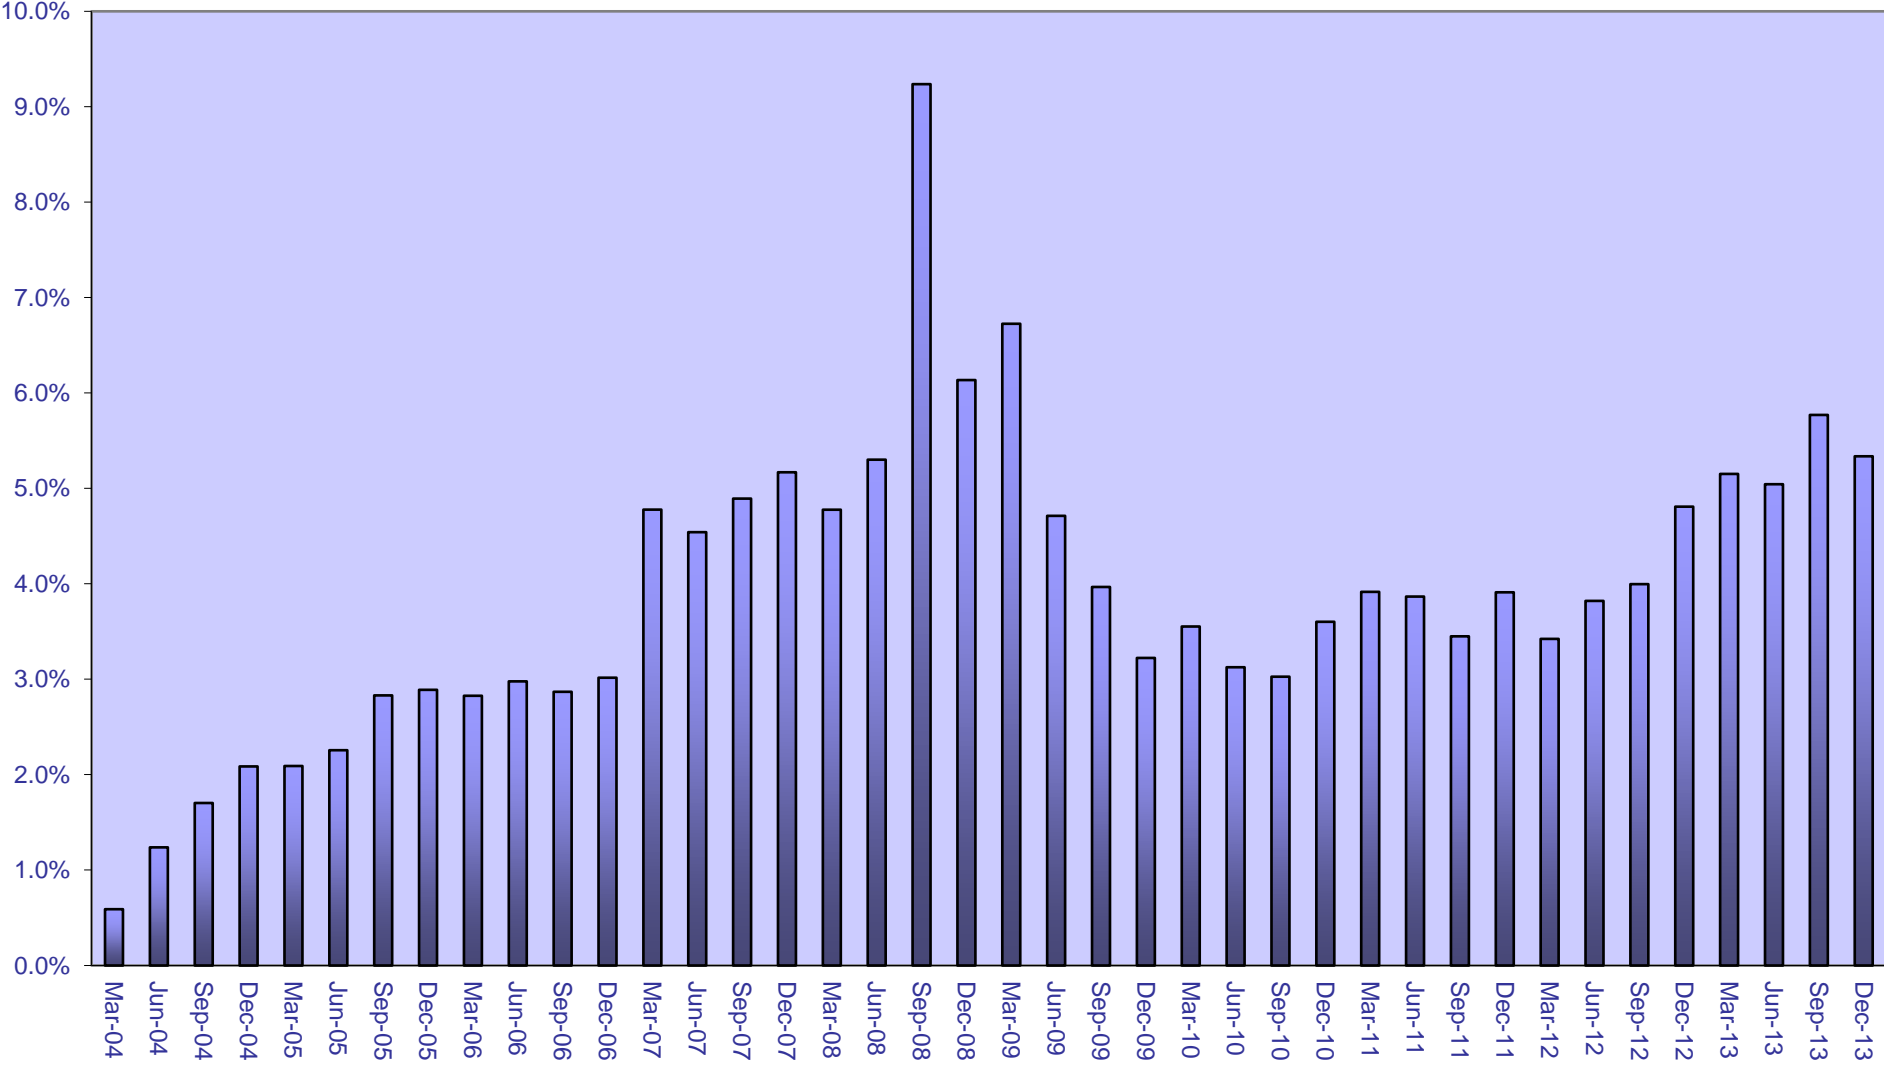

There is no influence on the actual flows and payments due under the transaction.

Explanation note

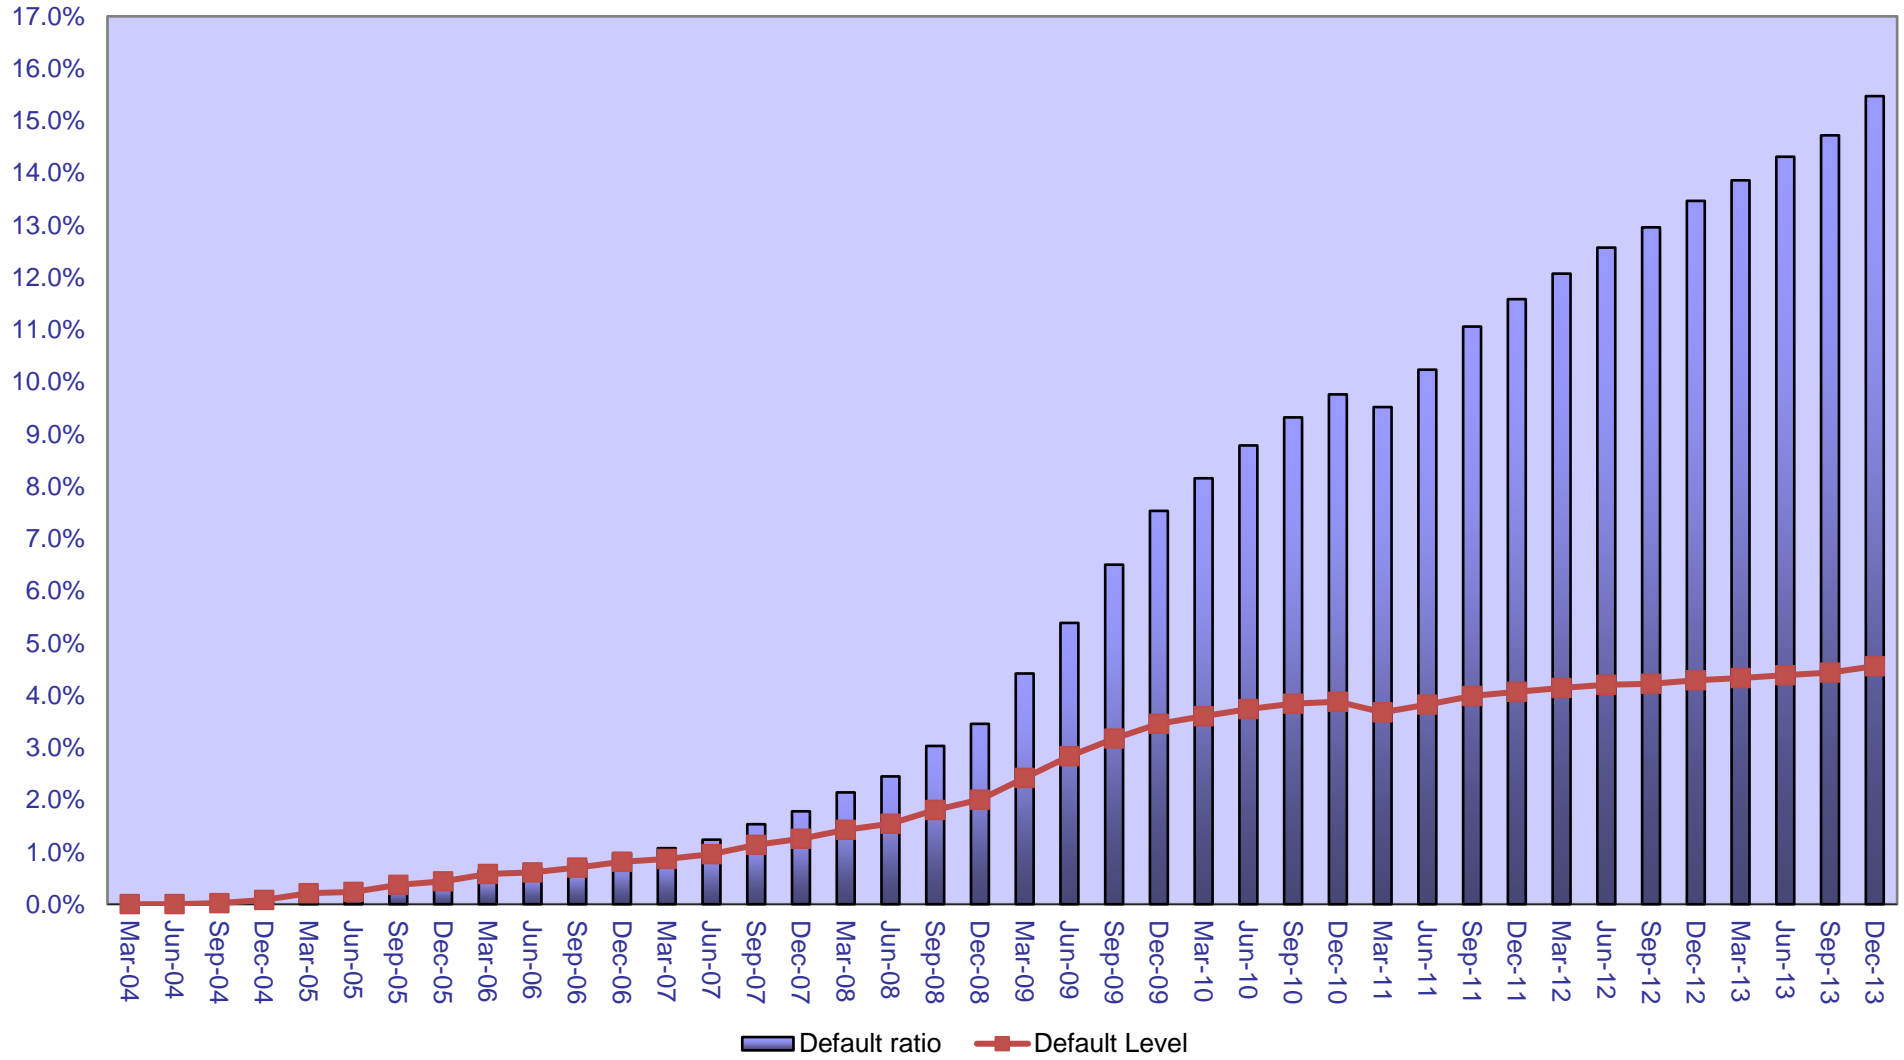

In the Servicing Report distributed by UniCredit S.p.A. (the "Servicer") for the Collection Period 1 November 2010 - 31 January 2011 the gross cumulative default figures decreased by an amount equal to Euro 2,210,891.00 (the "Default Difference Amount"). In respect to the last Collection Period, the Servicer has verified that a limited number of positions had been erroneously classified as Defaulted Mortgage Loans in the preceding Collection Periods.

Please note that the Default Difference Amount has not materially affected any transaction mechanics or triggers (such as, inter alia, the pro rata conditions) given that the balance of the Unpaid Principal Deficiency, net of the Default Difference Amount, at the time all the other pro-rata amortization conditions were met, would still have been positive.
